You can either google the radius of curvature of a single Pringle chip or use The Action Lab's much cooler method.

Amazon's Halo has a body fat percentage calculator. A new study shows that it's more accurate than some expensive devices used in a lab.

On June 14, 2021, a gas station in Novosibirsk, Russia, exploded and injured at least thirty people.

On Twitter, some users have pointed out that the trailer seems to be evoking the atmosphere of "Get Out," albeit less successfully.

Back in the day, artists used to be able to sing. Rick Beato explains how auto-tune robbed music of its character.

For the past 18 generations, one family has preserved a 400-year-old recipe showing how sushi once tasted and it doesn't use raw seafood, but fish aged for three years.

Long-forgotten yeast strains are being sought out from shipwrecks, abandoned breweries and other locations in the hope they could be put to good use if resurrected.

Ion is the first Pleasure Air Stroker in the world. It features the revolutionary, patented Pleasure Air technology used by Womanizer products, but for men. It gently massages the frenulum, creating a new kind of orgasm.

Some HBO Max subscribers received a strange email Thursday night with the subject line "Integration Test Email # 1." The body of the email said only, "This template is used by integration tests only." There were no attachments or images included.
